

Dallas Fort Worth International Airport

The “Greenest” Airport in North America

Uses **GRIP-FLEX** for Long-Term Pavement Preservation

Stays Black for 20+ Years

DFW Int'l. Airport Management needed LONG-TERM protection for the newly constructed shoulder pavements. *They did not want to waste money on treatments every 5-7 years.* Only **GRIP-FLEX** could offer **DECADES** of trouble free, environmentally safe long-term protection. **DO IT ONCE. DO IT RIGHT. GRIP-FLEX**
